# Reese's Rescues

est. 2002

## Assisting and re-homing the unwanted pets of Walton County, Georgia

Reese's Rescues has been working to save and find homes for pets since 2002. Founded by Dr. Reese, we have worked alongside Animal Care Hospital at Bold Springs to provide care for orphaned and abandoned animals. Our goal is to reach out to the "unwanted" animals in our community, so we only rescue from shelters. We work to place orphaned cats and dogs in homes they are suited for, hopefully for the duration of their lives. All of the animals we adopt out are fully examined, vaccinated, heartworm tested (dogs), FIV/FelV tested (cats), fecal tested, and spayed or neutered. Many of the pets that we take in have other medical issues that must be treated as well, and we often accept pets that are otherwise unlikely to make it out of the shelters.

**A big big thank you to our volunteers & donors!**
